**Bank OZK Announces Record
Fourth Quarter and Full Year 2023 Earnings**

LITTLE ROCK, ARKANSAS: Bank OZK (the “Bank”) (Nasdaq: OZK) today announced that net income available to common stockholders for the fourth quarter of 2023 was a record \$171.1 million, a 7.7% increase from \$158.8 million for the fourth quarter of 2022. Diluted earnings per common share for the fourth quarter of 2023 were a record \$1.50, an 11.9% increase from \$1.34 for the fourth quarter of 2022.

For the full year of 2023, net income available to common stockholders was \$674.6 million, a 23.2% increase from \$547.5 million for the full year of 2022. Diluted earnings per common share for the full year of 2023 were \$5.87, a 29.3% increase from \$4.54 for the full year of 2022.

Pre-tax pre-provision net revenue (“PPNR”) was \$262.6 million for the fourth quarter of 2023, an 8.9% increase from \$241.0 million for the fourth quarter of 2022. For the full year of 2023, PPNR was \$1.03 billion, a 28.3% increase from \$0.81 billion for the full year of 2022. The calculation of PPNR and the reconciliation to generally accepted accounting principles (“GAAP”) are included in the schedules accompanying this release.

The Bank’s annualized returns on average assets, average common stockholders’ equity and average tangible common stockholders’ equity for the fourth quarter of 2023 were 2.04%, 14.58% and 16.99%, respectively, compared to 2.35%, 14.76% and 17.48%, respectively, for the fourth quarter of 2022. The Bank’s returns on average assets, average common stockholders’ equity and average tangible common stockholders’ equity for the full year of 2023 were 2.20%, 14.93% and 17.50%, respectively, compared to 2.08%, 12.66% and 14.97%, respectively, for the full year of 2022. The results for the fourth quarter and full year of 2023 include the impact of a \$9.9 million FDIC special assessment recorded during the fourth quarter of 2023. The calculation of the Bank’s returns on average common stockholders’ equity and average tangible common stockholders’ equity and the reconciliations to GAAP are included in the schedules accompanying this release.

George Gleason, Chairman and Chief Executive Officer stated, “We are pleased to have reported record net income and record diluted earnings per share in each quarter of 2023, resulting in net income available to common stockholders for the year of \$674.6 million and diluted earnings per common share of \$5.87. Our goal for 2024 is to continue to improve our record annual net income and diluted earnings per common share achieved in 2023, and we believe that is a reasonable goal, notwithstanding what appears likely to remain a challenging macroeconomic environment. We feel that we are well positioned for the coming year, and we look forward to capitalizing on new opportunities.”

MANAGEMENT’S COMMENTS, CONFERENCE CALL, TRANSCRIPT AND FILINGS

In connection with this release, the Bank released management’s comments on its quarterly results, which are available at <https://ir.ozk.com>. This release should be read in conjunction with management’s comments on the fourth quarter and full year 2023 results.

Management will conduct a conference call to take questions at 10:00 a.m. CT (11:00 a.m. ET) on Friday, January 19, 2024. Interested parties may access the conference call live via webcast on the Bank’s investor relations website at <https://ir.ozk.com/news/event-calendar>, or may participate via telephone by registering using [this online form](#). Upon registration, all telephone participants will receive the dial-in number along with a unique PIN number that can be used to access the call. A replay of the conference call webcast will be archived on the Bank's website for at least 30 days.

The Bank files annual, quarterly and current reports, proxy materials, and other information required by the Securities Exchange Act of 1934 with the Federal Deposit Insurance Corporation (“FDIC”), copies of which are available electronically at the FDIC’s website at <https://efr.fdic.gov/fcxweb/efr/index.html> and are also available on the Bank’s investor relations website at ir.ozk.com. To receive automated email alerts for these materials please visit <https://ir.ozk.com/other/email-alerts> to sign up.

NON-GAAP FINANCIAL MEASURES

This release contains certain non-GAAP financial measures. The Bank uses these non-GAAP financial measures, specifically return on average common stockholders’ equity, return on average tangible common stockholders’ equity, tangible book value per common share, total common stockholders’ equity, total tangible common stockholders’ equity, the ratio of total tangible common stockholders’ equity to total tangible assets, and PPNR, to assess the strength of its capital, its ability to generate earnings on tangible capital invested by its shareholders and trends in its net revenue. These measures typically adjust GAAP financial measures to exclude intangible assets or provision for credit losses. Management believes presentation of these non-GAAP financial measures provides useful supplemental information which contributes to a proper understanding of the financial results and capital levels of the Bank. These non-GAAP disclosures should not be viewed as a substitute for financial results determined in accordance with GAAP, and they are not necessarily comparable to non-GAAP performance measures that may be presented by other banks. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures are included in the tables at the end of this release under the caption “Reconciliation of Non-GAAP Financial Measures.”

FORWARD-LOOKING STATEMENTS

This press release and other communications by the Bank include certain “forward-looking statements” regarding the Bank’s plans, expectations, thoughts, beliefs, estimates, goals and outlook for the future that are intended to be covered by the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on management’s expectations as well as certain assumptions and estimates made by, and information available to, management at the time. Those statements are not guarantees of future results or performance and are subject to certain known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those expressed in, or implied by, such forward-looking statements. These risks, uncertainties and other factors include, but are not limited to: potential delays or other problems in implementing the Bank’s growth, expansion and acquisition strategies, including hiring or retaining qualified personnel, obtaining regulatory or other approvals, delays in acquiring satisfactory sites, obtaining permits and designing, constructing and opening new offices or relocating, selling or closing existing offices; integrating any acquisitions; the availability of and access to capital; possible downgrades in the Bank’s credit ratings or outlook which could increase the costs of or decrease the availability of funding from capital markets; the ability to attract new or retain existing deposits or to retain or grow loans, including growth from unfunded closed loans; the ability to generate future revenue growth or to control future growth in non-interest expense; interest rate fluctuations, including changes in the yield curve between short-term and long-term interest rates or changes in the relative relationships of various interest rate indices; competitive factors and pricing pressures, including their effect on the Bank’s net interest margin or core spread; general economic, unemployment, credit market and real estate market conditions, and the effect of such conditions on the creditworthiness of borrowers, collateral values, the value of investment securities and asset recovery values; conditions within the banking industry, including the effects of recent failures of other financial institutions; recently enacted and potential laws and regulatory requirements or changes to existing laws and regulatory requirements, including changes affecting oversight of the financial services industry, changes intended to manage or mitigate climate and related environmental risks or changes in the interpretation and enforcement of such laws and requirements, and the costs and expenses to comply with new and/or existing legislation and regulatory requirements; uncertainty regarding changes in U.S. government monetary and fiscal policy; the impact of any U.S. federal government shutdown or budgetary crisis; FDIC special assessments or changes to regular assessments; the ability to keep pace with technological changes, including changes regarding artificial intelligence and maintaining cybersecurity; the impact of failure in, or breach of, our operational or security systems or infrastructure, or those of third parties with whom we do business or others, including as a result of cyber-attacks or an increase in the incidence or severity of fraud, illegal payments, security breaches or other illegal acts impacting the Bank, its customers or others; natural disasters; acts of war or terrorism; the potential impact of continuing inflationary pressures; the potential impact of supply chain disruptions; national or international political

instability or military conflict, including the conflict in the Middle East and the ongoing war in Ukraine; the competition and costs of recruiting and retaining human talent; impairment of our goodwill; adoption of new accounting standards, or changes in existing standards; and adverse results (including costs, fines, reputational harm and/or other negative effects) from current or future litigation, regulatory examinations or other legal and/or regulatory actions or rulings as well as other factors identified in this communication or as detailed from time to time in our public filings, including those factors described in the disclosures under the headings “Forward-Looking Information” and “Item 1A. Risk Factors” in our most recent Annual Report on Form 10-K for the year ended December 31, 2022 and our quarterly reports on Form 10-Q. Should one or more of the foregoing risks materialize, or should underlying assumptions prove incorrect, actual results or outcomes may vary materially from those described in, or implied by, such forward-looking statements. The Bank disclaims any obligation to update or revise any forward-looking statements based on the occurrence of future events, the receipt of new information or otherwise.

FORWARD-LOOKING STATEMENTS

This presentation and other communications by Bank OZK (the “Bank”) include certain “forward-looking statements” regarding the Bank’s plans, expectations, thoughts, beliefs, estimates, goals and outlook for the future that are intended to be covered by the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on management’s expectations as well as certain assumptions and estimates made by, and information available to, management at the time. Those statements are not guarantees of future results or performance and are subject to certain known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those expressed in, or implied by, such forward-looking statements. These risks, uncertainties and other factors include, but are not limited to: potential delays or other problems in implementing the Bank’s growth, expansion and acquisition strategies, including hiring or retaining qualified personnel, obtaining regulatory or other approvals, delays in acquiring satisfactory sites, obtaining permits and designing, constructing and opening new offices or relocating, selling or closing existing offices; integrating any acquisitions; the availability of and access to capital; possible downgrades in the Bank’s credit ratings or outlook which could increase the costs of or decrease the availability of funding from capital markets; the ability to attract new or retain existing deposits or to retain or grow loans, including growth from unfunded closed loans; the ability to generate future revenue growth or to control future growth in non-interest expense; interest rate fluctuations, including changes in the yield curve between short-term and long-term interest rates or changes in the relative relationships of various interest rate indices; competitive factors and pricing pressures, including their effect on the Bank’s net interest margin or core spread; general economic, unemployment, credit market and real estate market conditions, and the effect of such conditions on the creditworthiness of borrowers, collateral values, the value of investment securities and asset recovery values; conditions within the banking industry, including the effects of recent failures of other financial institutions; recently enacted and potential laws and regulatory requirements or changes to existing laws and regulatory requirements, including changes affecting oversight of the financial services industry, changes intended to manage or mitigate climate and related environmental risks or changes in the interpretation and enforcement of such laws and requirements, and the costs and expenses to comply with new and/or existing legislation and regulatory requirements; uncertainty regarding changes in U.S. government monetary and fiscal policy; the impact of any U.S. federal government shutdown or budgetary crisis; FDIC special assessments or changes to regular assessments; the ability to keep pace with technological changes, including changes regarding artificial intelligence and maintaining cybersecurity; the impact of failure in, or breach of, our operational or security systems or infrastructure, or those of third parties with whom we do business or others, including as a result of cyber-attacks or an increase in the incidence or severity of fraud, illegal payments, security breaches or other illegal acts impacting the Bank, its customers or others; natural disasters; acts of war or terrorism; the potential impact of continuing inflationary pressures; the potential impact of supply chain disruptions; national or international political instability or military conflict, including the conflict in the Middle East and the ongoing war in Ukraine; the competition and costs of recruiting and retaining human talent; impairment of our goodwill; adoption of new accounting standards, or changes in existing standards; and adverse results (including costs, fines, reputational harm and/or other negative effects) from current or future litigation, regulatory examinations or other legal and/or regulatory actions or rulings as well as other factors identified in this communication or as detailed from time to time in our public filings, including those factors described in the disclosures under the headings “Forward-Looking Information” and “Item 1A. Risk Factors” in our most recent Annual Report on Form 10-K for the year ended December 31, 2022 and our quarterly reports on Form 10-Q. Should one or more of the foregoing risks materialize, or should underlying assumptions prove incorrect, actual results or outcomes may vary materially from those described in, or implied by, such forward-looking statements. The Bank disclaims any obligation to update or revise any forward-looking statements based on the occurrence of future events, the receipt of new information or otherwise.

MANAGEMENT COMMENTS FOR THE FOURTH QUARTER AND FULL YEAR OF 2023

We are pleased to report our results for the fourth quarter and full year of 2023. Highlights include:

- **Net Income & Earnings Per Share.** Net income available to common stockholders for the quarter just ended was a record \$171.1 million and diluted earnings per common share were a record \$1.50, increases of 7.7% and 11.9%, respectively, compared to the fourth quarter of 2022. For the full year 2023, net income available to common stockholders was a record \$674.6 million and diluted earnings per common share were a record \$5.87, increases of 23.2% and 29.3%, respectively, compared to 2022.
- **Pre-tax Pre-provision Net Revenue¹ (“PPNR”).** PPNR for the quarter just ended was \$262.6 million, an increase of 8.9% compared to the fourth quarter of 2022, and for the full year 2023 was a record \$1.03 billion, an increase of 28.3% compared to 2022.
- **Net Interest Income.** Net interest income for the quarter just ended was a record \$370.5 million, an increase of 11.4% compared to the fourth quarter of 2022, and for the full year 2023 was a record \$1.44 billion, an increase of 26.0% compared to 2022.
- **Loans.** Total loans outstanding grew to a record \$26.46 billion, increasing \$1.13 billion, or 4.5% not annualized, in the quarter just ended, and increasing \$5.68 billion, or 27.3% for the full year 2023.
- **Deposits.** Deposits grew to a record \$27.41 billion, increasing \$1.85 billion, or 7.2% not annualized, in the quarter just ended, and increasing \$5.91 billion, or 27.5% for the full year 2023.
- **Liquidity.** We maintained robust available primary and secondary sources of liquidity which increased to \$10.9 billion at December 31, 2023.
- **Asset Quality.** Our annualized net charge-off ratio for total loans was 0.06% for the quarter just ended and 0.13% for the full year 2023. Nonperforming non-purchased loans to total non-purchased loans and nonperforming assets to total assets² were 0.23% and 0.36%, respectively, at December 31, 2023.
- **Return on Average Assets (“ROAA”) and ACL Build.** We achieved an annualized ROAA of 2.04% in the quarter just ended, while building our Allowance for Credit Losses (“ACL”) by a net \$39.7 million. For the full year 2023, we achieved a ROAA of 2.20% while building our ACL by a net \$136.0 million.
- **Efficiency Ratio.** Our efficiency ratio in the quarter just ended was 35.3% and for the full year was 33.7%.
- **Capital.** At December 31, 2023, our ratios of common stockholders’ equity and tangible common stockholders’ equity³ were 14.0% and 12.3%, respectively, and our book value and tangible book value per common share were \$42.42 and \$36.58, respectively, 14.2% and 16.2% increases from year-end 2022.
- **Dividends.** We recently increased our dividend on our common stock for the 54th consecutive quarter.

¹ The calculation of the Bank’s PPNR and the reconciliation to generally accepted accounting principles (“GAAP”) are included in the schedule at the end of this presentation.

² Excludes purchased loans, except for their inclusion in total assets.

³ The calculations of the Bank’s tangible common stockholders’ equity and tangible book value per common share and the reconciliations to GAAP are included in the schedules at the end of this presentation.

Net income available to common stockholders for the fourth quarter of 2023 was a record \$171.1 million, a 7.7% increase from \$158.8 million for the fourth quarter of 2022. Diluted earnings per common share for the fourth quarter of 2023 were a record \$1.50, an 11.9% increase from \$1.34 for the fourth quarter of 2022. For the full year of 2023, net income available to common stockholders was \$674.6 million, a 23.2% increase from \$547.5 million for the full year of 2022. Diluted earnings per common share for the full year of 2023 were \$5.87, a 29.3% increase from \$4.54 for the full year of 2022.

PPNR for the fourth quarter of 2023 was \$262.6 million, an 8.9% increase from \$241.0 million for the fourth quarter of 2022. For the full year of 2023, PPNR was \$1.03 billion, a 28.3% increase from \$805.0 million for the full year of 2022. During the quarter just ended, the Federal Deposit Insurance Corporation (the "FDIC") approved a special assessment applicable to banks generally. We fully accrued and expensed our \$9.9 million special assessment during the quarter just ended.

Our annualized ROAA was 2.04% for the fourth quarter of 2023 compared to 2.35% for the fourth quarter of 2022. Our annualized returns on average common stockholders' equity ("ROACE") and average tangible common stockholders' equity⁴ ("ROATCE") for the fourth quarter of 2023 were 14.58% and 16.99%, respectively, compared to 14.76% and 17.48%, respectively, for the fourth quarter of 2022. Our ROAA, ROACE and ROATCE for the full year of 2023 were 2.20%, 14.93% and 17.50%, respectively, compared to 2.08%, 12.66% and 14.97%, respectively, for the full year of 2022.

⁴ The calculation of the Bank's annualized returns on average common stockholders' equity and average tangible common stockholders' equity and the reconciliation to GAAP are included in the schedule at the end of this presentation.

Net Interest Income

Our net interest income for the fourth quarter of 2023 was a record \$371 million, an 11.4% increase from \$332 million for the fourth quarter of 2022, as shown in Figure 1. Our net interest income for the full year of 2023 was \$1.44 billion, a 26.0% increase from \$1.14 billion for the full year of 2022.

Our net interest income in the quarter just ended was our sixth consecutive record and resulted from our increased revenue from growth in average earning assets more than offsetting the impact of the decrease in our net interest margin. In 2024, we expect further growth in average earning assets and further decreases in our net interest margin, with the interplay between these two metrics, along with Fed interest rate decisions, primarily determining whether net interest income increases or decreases in each quarter from the level achieved in the quarter just ended.

Figure 1: Quarterly Net Interest Income

Earning Assets

Our total loans at December 31, 2023 were a record \$26.46 billion, having increased \$5.68 billion, or 27.3%, from December 31, 2022 and \$1.13 billion, or 4.5% not annualized, from September 30, 2023, as illustrated in Figure 2. We expect good loan growth in 2024, but less than the \$5.68 billion achieved in 2023. Loan growth in 2024 may vary significantly from quarter to quarter and may be impacted by interest rates, economic conditions, competition or other factors.

Figure 2: Total Loan Balances and Yields

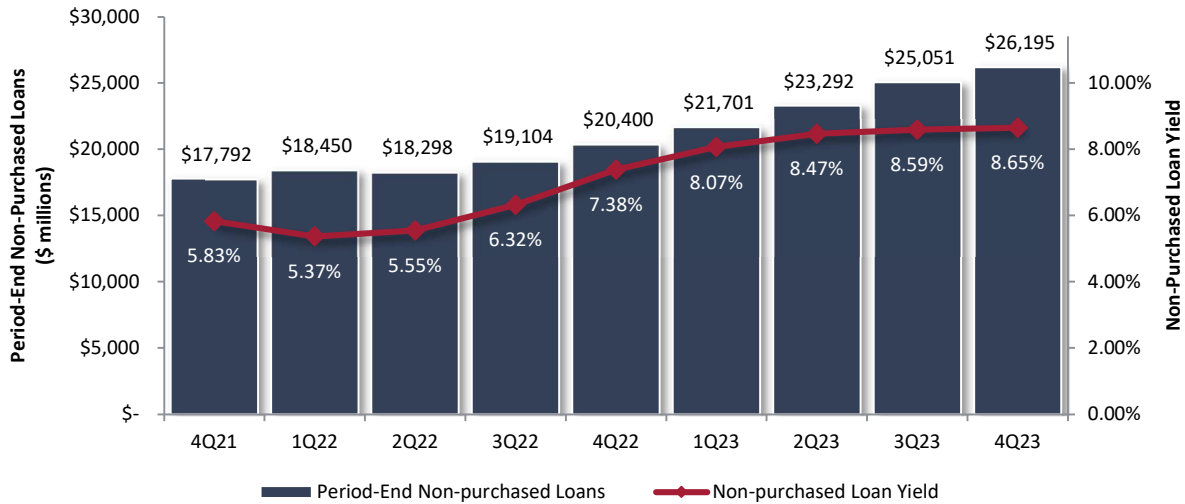

In the fourth quarter of 2023, our yield on total loans was 8.64%, an increase of 126 basis points (“bps”) from the fourth quarter of 2022 and six bps from the third quarter of 2023. For the full year of 2023, our yield on total loans was 8.45%, an increase of 225 bps from the full year of 2022.

Non-purchased Loans

Non-purchased loans, which are all loans excluding the remaining loans from acquisitions, accounted for 83.2% of our average earning assets in the quarter just ended. As illustrated in Figure 3, non-purchased loans were a record \$26.20 billion at December 31, 2023, having increased \$5.79 billion, or 28.4%, from December 31, 2022, and \$1.14 billion, or 4.6% not annualized, from September 30, 2023.

Figure 3: Non-purchased Loan Balances and Yields

In the fourth quarter of 2023, our yield on non-purchased loans was 8.65%, an increase of 127 bps from the fourth quarter of 2022 and six bps from the third quarter of 2023. In the full year of 2023, our yield on non-purchased loans was 8.46%, an increase of 228 bps from the full year of 2022.

Loan Portfolio Diversification

Figures 4 and 5 reflect the mix in our non-purchased loan growth in the fourth quarter and full year of 2023. Real Estate Specialties Group (“RESG”) was the largest contributor to this non-purchased loan growth. Community Banking, Indirect RV & Marine, Asset Based Lending Group (“ABLG”) and Corporate and Business Specialties Group (“CBSG”), collectively, contributed \$1.47 billion to non-purchased loan growth in 2023.

Figure 4: Non-purchased Loan Growth – 4Q23 (\$ millions)

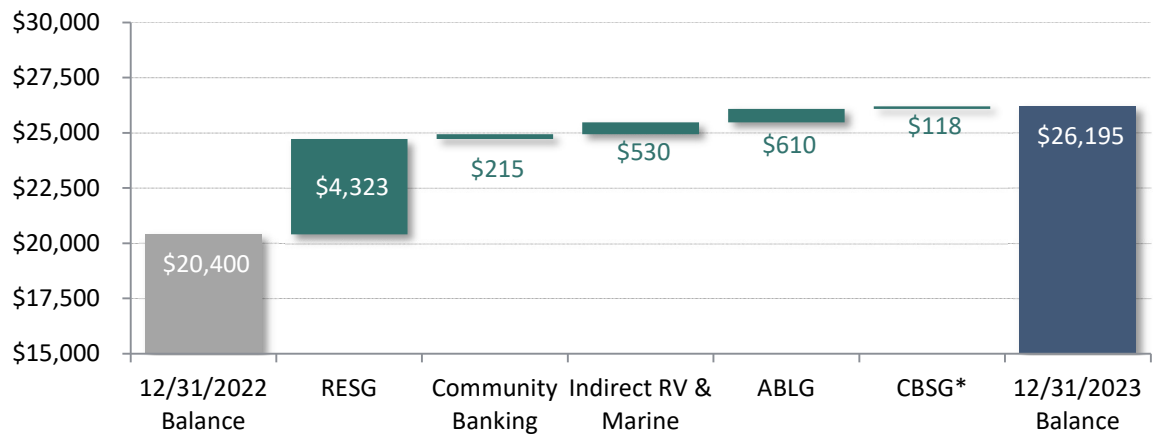

Figure 5: Non-purchased Loan Growth – FY23 (\$ millions)

* CBSG is a team focused on subscription finance, NAV finance, and other secured non-real estate lending opportunities.

Figure 6 illustrates our growth in non-purchased loans from \$9.61 billion at year end 2016 to \$26.20 billion at year end 2023, as well as the increased diversification.

Figure 6: Non-purchased Loan Growth Trends (\$ millions)

Even as our outstanding balance of RESG loans has reached record levels, RESG’s percentage of our non-purchased loans has declined from a peak of 70% at year end 2016 to 65% as of December 31, 2023, as illustrated in Figure 7.

Figure 7: Non-purchased Loan Composition Comparison (\$ millions)

We want to continue to grow our RESG portfolio while also achieving greater portfolio diversification through growth in our Community Banking, Indirect RV & Marine, CBSG and ABLG portfolios. We have good momentum with each of those teams. While RESG’s percentage of our total loans may increase in 2024 due primarily to continued funding of RESG’s record 2022 level of originations, we expect our other lending teams will contribute meaningfully to growth, especially in 2025 and 2026 when RESG is likely to have elevated levels of repayments, all of which should allow us to achieve greater portfolio diversification. This “growth, growth and diversification”

strategy allows us to capitalize on the unique strengths and expertise of RESG, while also continuing to ramp up growth in other lending teams contributing to long-term growth and portfolio diversification.

As reflected in Figures 8 and 9, RESG’s funded balance of non-purchased loans increased \$1.15 billion and \$4.32 billion during the fourth quarter and full year of 2023, respectively.

Figure 8: Activity in RESG Funded Balances – 4Q23 (\$ billions)

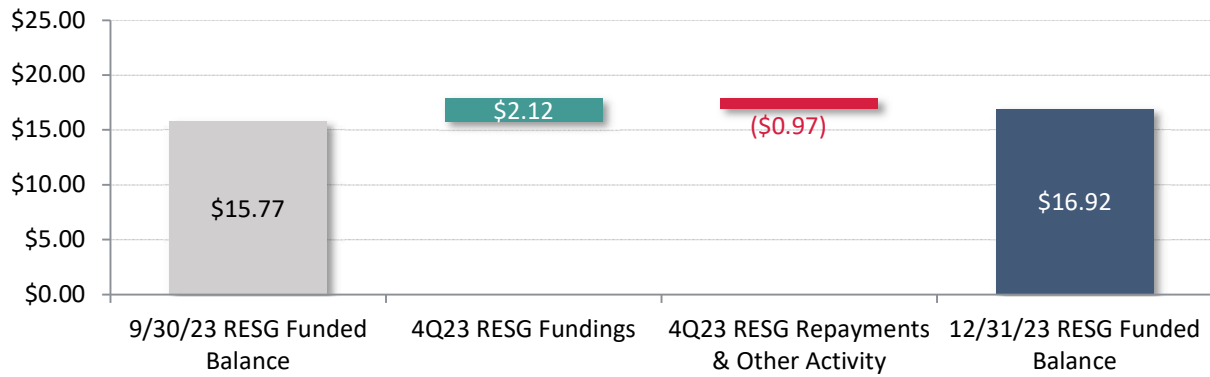

Figure 9: Activity in RESG Funded Balances – FY23 (\$ billions)

As shown in Figure 10, in the fourth quarter of 2023 RESG loan originations were \$2.05 billion, our highest of the year. RESG loan originations for the full year of 2023 were \$7.22 billion following record origination volume in 2022. Given the typical lag between RESG originations and the funding of such loans, the record 2022 origination volume should continue to contribute meaningfully to funded loan growth in 2024.

RESG origination volume in 2024 is expected to be at or somewhat above the \$7.22 billion achieved during 2023. Origination volume may vary significantly from quarter to quarter and may be impacted by interest rates, economic conditions, competition or other factors.

As shown in Figure 11, RESG’s loan repayments and other activity were \$0.97 billion in the quarter just ended and \$4.01 billion for the full year of 2023.

During 2023, RESG loan repayments were subdued as many sponsors carefully monitored interest rates and refinance market conditions to determine when to move projects from construction financing to bridge or permanent loans. Lower interest rates in 2024 may result in an increased level of loan repayments for the full year of 2024 as compared to 2023. RESG loan repayments may vary substantially from quarter to quarter and may have an outsized impact on our outstanding loan balances in one or more quarters.

Figure 12 illustrates the cadence of RESG loan originations and repayments. It shows the amount of each year's originations which have been repaid and which remain as outstanding commitments, both funded and unfunded, as of December 31, 2023.

Figure 12: RESG Origination and Repayment Trends by Year of Origination (*Total Commitment*)

The loan-to-value (“LTV”) metrics on individual loans within the RESG portfolio as of December 31, 2023, are illustrated in Figure 13. The significant protection provided by RESG’s conservative loan-to-cost (“LTC”) and LTV metrics is always important, and especially so in the current macroeconomic environment. Assuming full funding of every RESG loan, the weighted average LTC for the RESG portfolio was 52%, and the weighted average LTV was 43%, as of December 31, 2023. RESG collateral valuations are supported by the fact that the majority of RESG loans are for new construction featuring current design and amenity packages, which provides a distinct competitive advantage compared to older, less desirable properties.

Figure 13: RESG Portfolio by LTV & Origination Date (As of December 31, 2023)

Bubble Size Reflects Total Funded and Unfunded Commitment Amount

LTV ratios assume all loans are fully funded. LTV data based on most recent appraisals and utilizing, in most cases, "as stabilized" values for income producing properties.

As of December 31, 2023, the RESG portfolio has three credits that are rated substandard and no credits rated special mention. These three credits have been discussed in previous Management Comments and updates on these credits are as follows:

- *Development near Lake Tahoe.* A \$54.5 million performing credit which has been substandard accrual since 2019 and has an 86% LTV. The total commitment related to this credit was reduced from \$56 million to \$54.5 million in the quarter just ended.
- *Minneapolis hotel.* An \$18.8 million substandard-nonaccrual credit which is past due. During the quarter just ended, we recognized an additional \$1.18 million charge-off based on our revised estimates related

to the timing and cost of liquidating this asset. This credit is subject to ongoing collection efforts and is now carried at 80% of “as-is” appraised value.

- *Chicago land.* A \$128 million substandard-accrual credit that has a 95% LTV. During the quarter just ended, this credit was downgraded from special mention to substandard accrual based on the pace of the sponsor’s recapitalization initiative. The sponsor continues to pursue opportunities to bring in new capital, and we will continue to monitor their efforts closely. The sponsor maintains a cash reserve with us, which was approximately \$4.3 million at December 31, 2023, which was not included in the LTV calculation.

As of December 31, 2023, our ACL allocations for the three credits above were \$16.5 million, \$1.9 million and \$32.8 million, respectively.

During the fourth quarter of 2023, RESG obtained updated appraisals on 20 loans with a total commitment of \$1.51 billion. Figure 14 shows the resulting changes in LTV as compared to the LTV based on the previous appraised value and the previous total loan commitment for each of these loans. Principal paydowns received on several loans helped maintain LTVs at favorable levels. In summary, LTVs were little changed (plus or minus 10%) for 16 loans, LTVs decreased more than 10% for one loan and LTVs increased more than 10% for three loans.

The RESG portfolio includes loans of many different sizes. The stratification of the RESG portfolio by commitment size is reflected in Figure 17.

Our Community Banking loans, which accounted for 19% of the funded balance of non-purchased loans as of December 31, 2023, include consumer and small business loans, loans originated by our commercial (generalist) lenders, and loans originated by our specialty lending teams in Community Banking, which include our government guaranteed, agricultural (including poultry), business aviation, affordable housing, middle market CRE, home builder finance and equipment finance/capital solutions lending teams. Growth in these units is an important part of our broader strategy for portfolio diversification, both in terms of product types and geography.

Indirect RV & Marine lending is a nationwide business that has allowed us to originate consumer loans while maintaining our conservative credit-quality standards. This portfolio accounted for 11% of the funded balance of non-purchased loans as of December 31, 2023. Our objective is to maintain this portfolio within a range of 10% to 15% of our total loans.

As of December 31, 2023, the non-purchased indirect portfolio had a 30+ day delinquency ratio of 0.22%. For the fourth quarter and full year of 2023, our annualized net charge-off ratio for the non-purchased indirect portfolio was 0.31% and 0.28%, respectively. Figure 18 provides additional details regarding this portfolio.

Unfunded Balances of Loans Already Closed

At December 31, 2023, RESG accounted for 81% of our \$20.57 billion unfunded balance of loans already closed, followed by Community Banking at 10%, ABLG at 6% and CBSG at 3%. Our total unfunded balance decreased slightly during the quarter just ended, bringing the decrease for the full year of 2023 to \$0.49 billion, or 2.3%, as shown in Figures 19 and 20. The mix of our unfunded balance of loans has continued to diversify with RESG accounting for 81% of the unfunded balance as of December 31, 2023, compared to 86% at December 31, 2022.

Purchased Loans

Purchased loans, which are the remaining loans from acquisitions, accounted for 0.9% of our average earning assets in the quarter just ended. During the quarter, our purchased loan portfolio decreased \$0.02 billion, or 5.9% not annualized, to \$0.26 billion at December 31, 2023. For the full year of 2023, our purchased loan portfolio decreased by \$0.11 billion, or 30.3%. Figure 21 shows recent purchased loan portfolio trends.

Figure 21: Purchased Loan Balances and Yields

In the fourth quarter of 2023, our yield on purchased loans was 7.92%, an increase of 69 bps from the fourth quarter of 2022, but a decrease of five bps from the third quarter of 2023. In the full year of 2023, our yield on purchased loans was 7.23%, an increase of 18 bps from the full year of 2022.

Investment Securities Portfolio

As illustrated in Figure 22, at December 31, 2023, our investment securities portfolio was \$3.24 billion, a decrease of \$0.26 billion, or 7.3%, from December 31, 2022, but an increase of \$0.09 billion, or 2.9% not annualized, from September 30, 2023, as better mark-to-market adjustments more than offset portfolio net paydowns during the quarter just ended. In the quarter just ended, our investment portfolio yield on a fully taxable equivalent basis was 2.84%, an increase of 48 bps from the fourth quarter of 2022 and 18 bps from the third quarter of 2023.

Figure 22: Investment Securities Portfolio Balances and Yields

* Effective duration and convexity data as of the end of each respective quarter.

We have no investment securities categorized as held-to-maturity. We have long believed that holding our securities as available-for-sale or trading provides us maximum liquidity and flexibility to manage our balance sheet, while most accurately reflecting our financial position. Thus, we have no unrecognized mark-to-market adjustments on securities. Additionally, our investment securities portfolio comprises a relatively low percentage of our total assets, and, as shown above, had a short effective duration of 3.83 years as of quarter end. It contains a number of short-term securities providing us cash flow to reinvest or otherwise redeploy. Principal cash flow from maturities and other principal repayments in the first quarter of 2024 is expected to be approximately \$0.18 billion, or about 5.5% of the portfolio. Cumulative principal cash flow for 2024 is expected to be approximately \$1.00 billion, or about 30.6% of the portfolio.

We may increase or decrease our investment securities portfolio in future quarters based on changes in our liquidity position, prevailing market conditions and other factors.

Deposits and Liquidity

In recent years, we have worked to improve the mix and quality of our deposit base by focusing significant efforts on growing our core relationships. This groundwork has been very helpful in the current environment, allowing us to continue to grow deposits even as many banks have seen deposit outflows. Like many in the industry, we have seen a shift in the mix of deposits away from noninterest bearing and lower cost deposits to more time deposits as many customers have been taking advantage of increases in time deposit rates.

During the quarter just ended, our deposits grew to a record \$27.41 billion, increasing \$1.85 billion, or 7.2% not annualized. During the full year of 2023, our deposits increased \$5.91 billion, or 27.5%, compared to December 31, 2022.

Most of our deposits are generated through our network of 228 retail branches in Arkansas, Georgia, Florida, North Carolina and Texas. Because of the substantial “retail” nature of our deposit base, 82% of our deposits are either insured (66% at December 31, 2023) or, in the case of public funds and certain other deposits, collateralized (16% at December 31, 2023). As of December 31, 2023, our average account balance was approximately \$43,000. The diversity of our deposit base is an important factor in the stability of our deposits, as demonstrated in recent quarters.

Net Interest Margin and Core Spread

During the quarter just ended, our net interest margin was 4.82%, decreasing 23 bps and 64 bps from the third quarter of 2023 and fourth quarter of 2022, respectively.

Compared to the third quarter of 2023, our yield on average earning assets in the quarter just ended increased nine bps to 7.85%, and our cost of interest bearing liabilities increased 36 bps to 3.95%. Compared to the fourth quarter of 2022, our yield on average earning assets increased 131 bps and our cost of interest bearing liabilities increased 241 bps.

As shown in Figure 26, in the third quarter of 2023, the latest quarter for which comparative data is available, our net interest margin outperformed the industry by 175 bps.

Figure 26: Quarterly Net Interest Margin (%)

*Data for all FDIC insured institutions from the FDIC Quarterly Banking Profile, last updated third quarter 2023.

As reflected in Figure 27, during the quarter just ended, our core spread, which is how we describe the difference between our yield on non-purchased loans and our cost of interest bearing deposits (“COIBD”), was 4.76%, a decrease of 35 bps and 129 bps from the third quarter of 2023 and fourth quarter of 2022, respectively.

Figure 27: Core Spread and COIBD

Over the last seven quarters since the Fed started increasing the Fed funds target rate, our non-purchased loan yields increased 328 bps while our COIBD increased 366 bps, resulting in a cumulative decrease in our core spread of 38 bps. Over that same period, our net interest margin increased 58 bps primarily due to a change in the mix of our average earning assets, among other factors. During 2023, our COIBD increased more than our yield on non-purchased loans, as deposit rates began to catch up with changes in variable-rate loan yields.

We expect our COIBD will continue to increase over the next few quarters, albeit at a slowing pace of increase, likely resulting in some further decreases in our core spread and net interest margin. If the Fed begins to cut rates some time in 2024, we would expect that our loan yields will initially decline more quickly than our COIBD, which could result in some further short term pressure on our core spread and net interest margin.

Variable Rate Loans

At December 31, 2023, 81% of our funded balance of total loans had variable rates, of which 84% were tied to 1-month term SOFR, 14% to WSJ Prime and 2% to other indexes. At December 31, 2023, 98% of our variable rate total loans (non-purchased and purchased) had floor rates, and the vast majority of such loans were above their floor rates.

Provision and Allowance for Credit Losses (“ACL”)

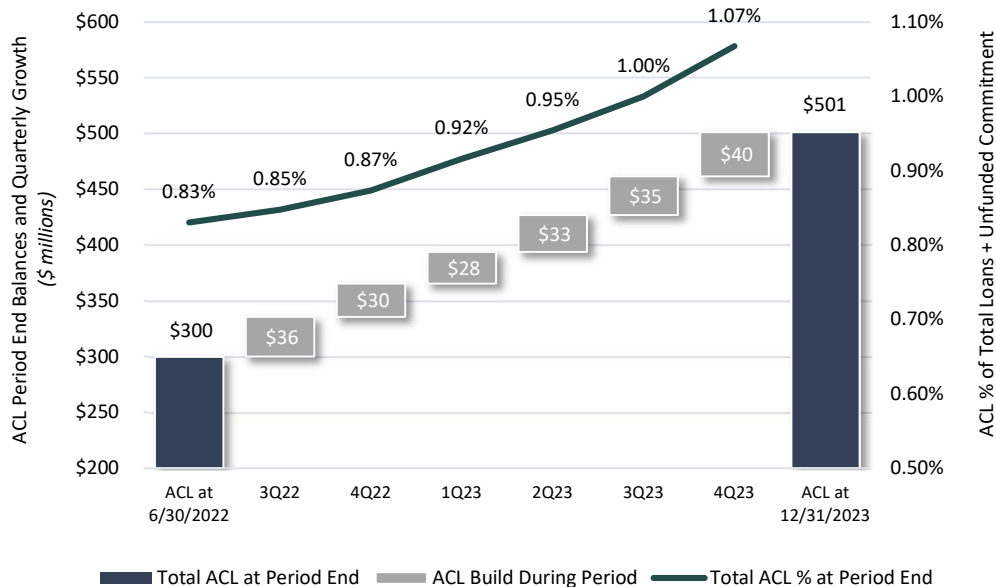

Our provision for credit losses was \$43.8 million and \$165.5 million, respectively, for the fourth quarter and full year of 2023, while our net charge-offs were \$4.1 million and \$29.5 million, respectively, for the fourth quarter and full year of 2023.

As of December 31, 2023, our total ACL was \$501.2 million, or 1.07% of total outstanding loans and unfunded loan commitments. This included our allowance for loan losses (“ALL”), which was \$339.4 million, or 1.28% of total outstanding loans, and our reserve for losses on our unfunded loan commitments, which was \$161.8 million, or 0.79% of unfunded loan commitments.

As shown in Figure 28, over the last six quarters we have increased our total ACL by a net \$201 million. This large increase reflects both our \$10.9 billion combined growth in total outstanding loans and unfunded loan commitments and our cautious outlook on macroeconomic conditions. This has resulted in cumulative provision expense of \$238 million even as our cumulative net charge-offs were only \$36 million.

Likewise, over those six quarters, our overall ACL percentage has increased from 0.83% to 1.07% of total outstanding loans and unfunded loan commitments at December 31, 2023. This ACL percentage increase primarily reflects (i) changes in economic assumptions as the Fed has increased the Fed funds target rate by 525 bps and (ii) our more heavily weighting the Moody’s downside macroeconomic scenarios than the Moody’s Baseline scenario.

Figure 28: ACL Build – Last Six Quarters

We are particularly pleased to have reported record net income and record diluted earnings per share in each of the last five quarters while achieving a substantial build in our ACL.

Activity in our ACL for the fourth quarter and full year of 2023 is summarized in Figures 29 and 30.

Figure 29: Activity in ACL – 4Q23 (\$ millions)

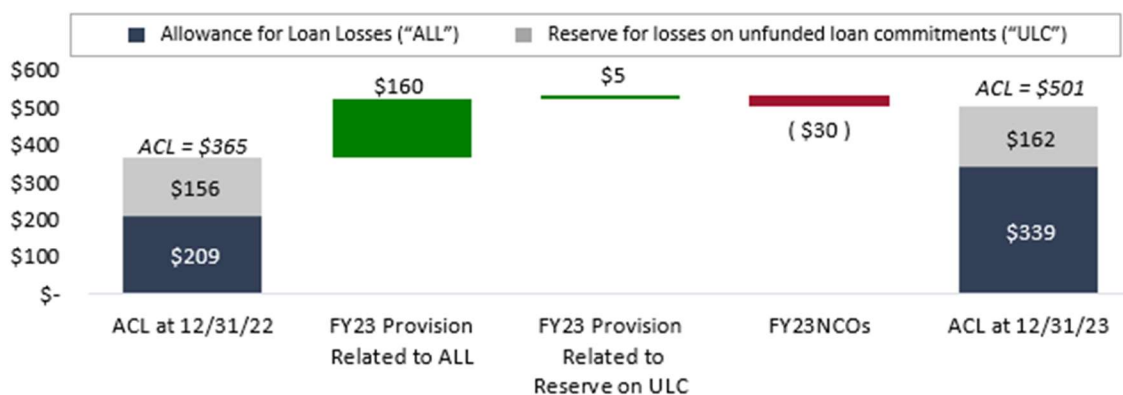

Figure 30: Activity in ACL – FY23 (\$ millions)

The calculations of our provision for credit losses for the fourth quarter of 2023 and our total ACL at December 31, 2023 were based on a number of key estimates, assumptions and economic forecasts. We utilized recent economic forecasts provided by Moody’s, including their updates released in December 2023. In our selection of macroeconomic scenarios, we remained weighted to the downside as the combined weightings assigned to the Moody’s S4 (Alternative Adverse Downside) and S6 (Stagflation) scenarios exceeded that of the Moody’s Baseline scenario. Our selection and weightings of these scenarios reflected our assessment of conditions in the U.S. economy, and acknowledged the uncertainty regarding future U.S. economic conditions, including the elevated risks from: a possible recession, inflationary pressures, U.S. fiscal policy actions, quantitative tightening, changes in the Fed funds target rate, the conflict in the Middle East, the ongoing war in Ukraine, global trade and geopolitical matters, supply chain disruptions and various other factors. Our ACL calculations include certain qualitative adjustments to capture items not fully reflected in our modeled results.

Net Charge-Offs

We have continued our long-standing track record of having net charge-off ratios well below industry averages, as shown in Figure 31. In the quarter just ended, our annualized net charge-off ratio for non-purchased loans was 0.07%, for purchased loans was -0.71%, and for total loans was 0.06%. For the full year of 2023, our net charge-off ratio for non-purchased loans was 0.11%, for purchased loans was 1.43%, and for total loans was 0.13%, in line with our 6 to 16 bps guidance provided at the beginning of 2023. In our 26 years as a public company, our net charge-off ratio has outperformed the industry's net charge-off ratio every year and has averaged only about one-third of the industry's net charge-off ratio.

We have built our portfolio with the goal that it will perform well in adverse conditions, and that discipline has been evident in our recent results through the pandemic, the Fed's increasing interest rates, higher rates of inflation, and numerous other sources of macroeconomic, political and geo-political turbulence. Given our cautious outlook regarding uncertainty with U.S. economic conditions, and consistent with recent industry trends, we expect we may see some increase in net charge-offs in 2024, but we expect to remain well below the industry average. Our net charge-off ratio may vary significantly from quarter to quarter.

Our RESG portfolio has a long tradition of excellent asset quality. As shown in Figure 32, we have had only occasional charge-offs in the RESG portfolio as that portfolio has benefitted from the fact that most of its loans are on newly constructed properties with strong sponsorship, low leverage and protective loan structures. In fact, the weighted average annual net charge-off ratio (including OREO write-downs) for the RESG portfolio over its 20-year history is seven bps.

With occasional exceptions, we expect most sponsors will continue to support their properties, if needed, through times of economic stress until business or economic conditions normalize.

Other Asset Quality Measures

As shown in Figures 33, 34 and 35, the dollar volumes of our nonperforming non-purchased loans, nonperforming assets and past due non-purchased loans continued our longstanding track record of performing well relative to industry averages, and we expect that favorable performance to continue.

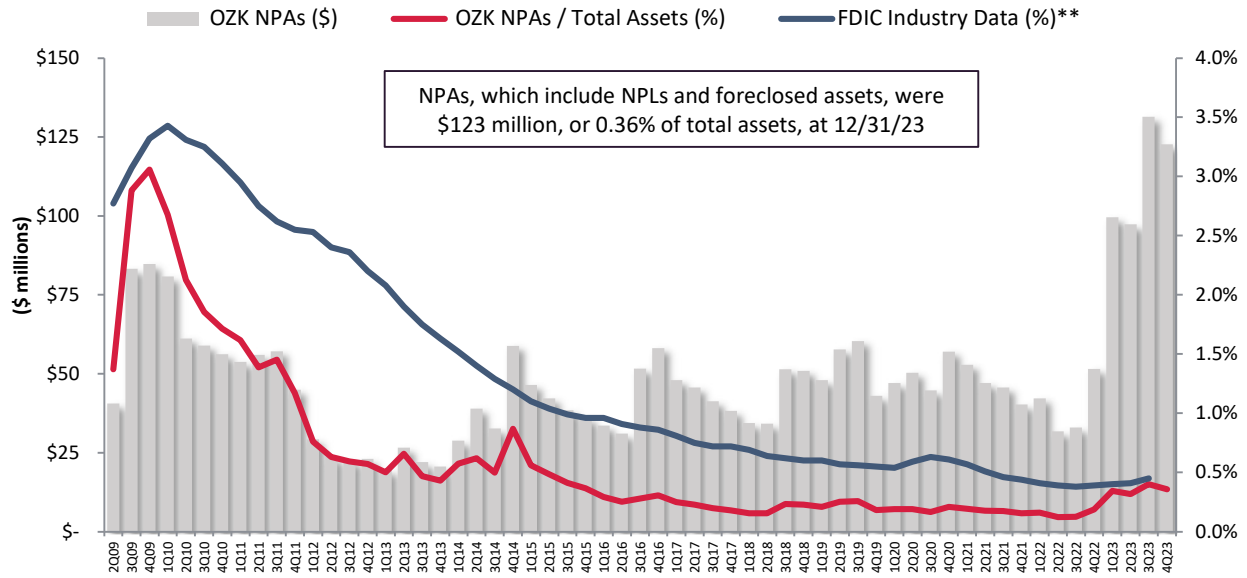

Figure 33: Nonperforming Non-purchased Loans (“NPLs”)

* Note: Data for all FDIC insured institutions from the FDIC Quarterly Banking Profile, last updated third quarter 2023. Percent of Loans Noncurrent is the percentage of loans that are past due 90 days or more or that are in nonaccrual status.

At December 31, 2023, our ratio of nonperforming non-purchased loans to total loans (excluding purchased loans) was 0.23% compared to 0.25% as of September 30, 2023 and 0.22% as of December 31, 2022.

Figure 34: Nonperforming Assets (“NPAs”)

**** Note:** Data for all FDIC insured institutions from the FDIC Quarterly Banking Profile, last updated third quarter 2023. Noncurrent assets plus other real estate owned to assets (%).

At December 31, 2023, our ratio of nonperforming assets to total assets (excluding purchased loans, except for their inclusion in total assets) was 0.36% compared to 0.40% as of September 30, 2023 and 0.19% as of December 31, 2022. Our NPAs at December 31, 2023 consisted of \$61.0 million of NPLs and \$61.7 million of foreclosed assets.

In our October 2023 Management Comments, we noted that we had pending sales contracts on three properties covering 99% of our September 30, 2023 foreclosed assets. Sales closed on two of those properties in the quarter just ended resulting in net proceeds in excess of our book value. The remaining contract is on the largest property. Consistent with our previous disclosures, closing of this contract is subject to typical due diligence and closing conditions, has an expected closing date before March 31, 2024, and, if closed, is expected to result in no loss on sale.

*** Note: Data for all FDIC insured institutions from the FDIC Quarterly Banking Profile, last updated third quarter 2023. Percent of Loans Noncurrent + Percent of Loans 30-89 Days Past Due.

At December 31, 2023, our ratio of non-purchased loans past due to total non-purchased loans was 0.20%, compared to 0.21% at September 30, 2023 and 0.13% as of December 31, 2022.

Non-interest Income

Non-interest income for the fourth quarter of 2023 was \$37.0 million, an increase of 34.4% from the fourth quarter of 2022 and 43.9% from the third quarter of 2023. Non-interest income for the quarter just ended benefitted from \$3.3 million in gains on sales of other assets, \$3.0 million in BOLI death benefits, and somewhat higher than normal loan service, maintenance and other fees. For the full year of 2023, non-interest income was \$122.5 million, an increase of 7.0% from \$114.5 million for the full year of 2022. Figures 36 and 37, respectively, summarize non-interest income for the most recent five quarters and year-over-year trends for the fourth quarter and full year of 2023.

Consistent with the industry trend, we have recently decided to eliminate non-sufficient funds (“NSF”) fees effective January 1, 2024, which we expect to result in a reduction in our service charges on deposit accounts by approximately \$1 million per quarter.

Non-interest Expense

Non-interest expense for the fourth quarter and full year of 2023 was \$145.0 million and \$529.6 million, increases of 21.8% and 17.2%, respectively, from the fourth quarter and full year of 2022. The results for the quarter just ended and full year of 2023 included the impact of the previously mentioned \$9.9 million FDIC special assessment. Excluding the impact of the FDIC special assessment, non-interest expense for the fourth quarter and full year of 2023 would have increased 13.6% and 15.1%, respectively, compared to fourth quarter and full year of 2022.

During 2022 and 2023, increases in salaries and employee benefits expense were significant contributors to increased non-interest expense. This escalation in salaries and benefits expense has been driven by competitive labor market conditions and our expanding staff. We expect further growth in headcount to support our anticipated growth in deposits, loans and other aspects of our business. Also, we believe that current economic conditions may present opportunities to add additional high-quality members to a number of our teams, which may result in further increases in salaries and benefits expense, while also providing future growth opportunities.

We expect total non-interest expense for the full year 2024 to increase at a percentage rate in the low-single-digits compared to full year 2023. We expect most categories of non-interest expense will continue increasing during 2024 due to a combination of expected growth in our business and inflationary macroeconomic conditions.

However, the increases will be mostly offset by decreases in several expense categories, including:

- recategorization of the amortization expense related to our CRA and tax credit investments resulting from the adoption of a new accounting standard, more fully described below;
- the expectation that there will be no additional FDIC special assessments in 2024; and
- the elimination of the amortization of our intangibles, which were fully amortized in 2023.

Figures 38 and 39, respectively, summarize non-interest expense for the most recent five quarters and year-over-year trends for the fourth quarter and full year of 2023.

On January 1, 2024, we made an election to account for our tax credit investments using the proportional amortization method under *Accounting Standards Update 2023-02, Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Method*. We adopted this new standard on a prospective basis for all of our tax credit investments. Prior to the adoption of this standard, we accounted for the amortization of our CRA and tax credit investments in non-interest expense and the impact of the associated income tax credits were accounted for as a component of income tax expense. Under the newly-adopted proportional amortization method, both the amortization and income tax benefits received will be included as components of income tax expense. The impact of this change in accounting method will result in a reduction of non-interest expense and an increase in income tax expense compared to our previous methodology. If we had adopted this new standard in

2023, our non-interest expense would have been lower and our income tax expense would have been higher by approximately \$27.8 million.

Efficiency Ratio

As shown in Figure 40, in the quarter just ended, our efficiency ratio was 35.3%. For the full year of 2023, our efficiency ratio was 33.7%. Our efficiency ratio has been in the top decile of the industry for 21 consecutive years.*

Most banks with a good efficiency ratio focus relentlessly on controlling costs. We take a different approach. We achieve our excellent efficiency ratio by pursuing a business model that generates strong revenue. This allows us to be highly efficient while also constantly improving our products and technology for our customers and providing competitive pay and benefits for our teammates.

Figure 40: Quarterly Efficiency Ratio (%)

** Data for all FDIC insured institutions from the FDIC Quarterly Banking Profile, last updated third quarter 2023.

Effective Tax Rate

Our effective tax rate for the quarter just ended was 20.0% and for the full year of 2023 was 20.3%. Assuming no changes in applicable state or federal income tax rates, we expect our effective tax rate for the full year of 2024 to be between 23% and 24%. Our expected effective tax rate for 2024 is higher than our effective tax rate in 2023 primarily due to the change in accounting methodology, described above, related to the amortization of our investments in low-income housing, renewable energy and other tax credits.

Capital and Dividends

Our strong earnings and earnings retention rate, among other factors, have contributed to our robust capital ratios, as shown in Figure 41, even with our 24% growth in total assets in 2023. Our Tier 1 Leverage and tangible common equity ratios remain among the highest in the industry. Even with our expected growth in 2024, our strong earnings and earnings retention should contribute to maintaining our risk-based capital ratios near or above current levels.

Our strong capital position gives us significant optionality and is expected to support organic loan growth, adding new business lines, increases in our quarterly cash dividend, and, if appropriate, acquisitions or stock repurchases.

** Ratios are risk-based*

We have increased our cash dividend in each of the last 54 quarters and every year since going public in 1997. We expect that we will continue to increase our cash dividend in future quarters.

⁵ Ratios as of December 31, 2023 are preliminary estimates and are subject to revision upon filing of our FFIEC 041 Call Report.

Stock Repurchase Program

During the full year of 2023, we repurchased 4.3 million shares for \$151.5 million, which equates to a weighted average cost of approximately \$35.19 per share. During the quarter just ended, we did not repurchase any shares and our recent stock repurchase program expired on November 9, 2023.

Our substantial growth in 2023 helped us profitably deploy capital. We expect further growth in 2024. In evaluating whether or not we will pursue future stock repurchases, management will consider a variety of factors including our expected growth, stock price, capital position, regulatory requirements and other factors.

Book Value and Tangible Book Value

During the quarter just ended, our book value per common share increased to \$42.42, a 14.3% increase from December 31, 2022. Over the last 10 years, we have increased book value per common share by a cumulative 397%, resulting in a compound annual growth rate of 17.4%, as shown in Figure 42.

Figure 42: Book Value per Share (Period End)

During the quarter just ended, our tangible book value per common share increased to \$36.58, a 16.3% increase from December 31, 2022. Over the last 10 years, we have increased tangible book value per common share by a cumulative 342%, resulting in a compound annual growth rate of 16.0%, as shown in Figure 43.

Figure 43: Tangible Book Value per Share (Period End) ⁶

Secondary Market Mortgage Lending

In our October 2022 Management Comments, we discussed that we were beginning to build a secondary market mortgage business to serve our customers’ mortgage banking needs. We have taken a measured approach to building this business, including the team, technology, compliance, governance and risk infrastructure. We are now moving toward production and expect our first originations late in the first quarter of 2024, with our team and production volume growing steadily throughout 2024 and 2025. We believe mortgage banking will provide additional service to our customers and eventually contribute to our profitability.

Final Thoughts

We are pleased to have reported record net income and record diluted earnings per share in each quarter of 2023, resulting in net income available to common stockholders for the year of \$674.6 million and diluted earnings per share of \$5.87. Our goal for 2024 is to continue to improve our record annual net income and diluted earnings per share achieved in 2023, and we believe that is a reasonable goal, notwithstanding what appears likely to remain a challenging macroeconomic environment. We feel that we are well positioned for the coming year, and we look forward to capitalizing on new opportunities.
